

MaxiFloat

MAXIFLOAT® DXP

Our finest offering, the MaxiFloat DXP offers three layers of Co-Polymer and Polyurethane Foam. It also includes an anatomically inspired three zoned-middle layer for therapeutic pressure reduction and incredible comfort. The result is very low interface pressure readings and proven clinical outcomes at a very cost effective price.

THE PROVEN MAXIFLOAT DXP EXCLUSIVES:

- ▲ The patented multi-level and multi-density Heel Pillow™
- ▲ Two section, co-polymer Top Layer with a super-soft section for the lower legs and heels
- ▲ HypoLex® Ultra™ Top Cover
- ▲ High Density Side Borders
- ▲ Heavy duty, tri-laminate bottom cover with 360° zipper
- ▲ Patented Linen Lock™ Sheet Hold-Down System
- ▲ 5 year non-prorated warranty

Patented Heel Pillow™*

The exclusive MaxiFloat Heel Pillow significantly reduces interface pressure in the sensitive heel area, for the life of the mattress. Its patented multi-density and multi-layered design provides long lasting pressure reduction that far exceeds any single layer design. And it requires no removal or reconfiguration of parts to deliver optimal results. *U.S. Patent 5,398,354.

Linen Locks*

This unique, patented sheet hold-down system keeps flat sheets in place even when patients are repositioned or get out of bed. Allows sheets to remain loose and billowy. *U.S. Patent 5,555,578.

Anti-microbial barrier

The exclusive Anti-Microbial Barrier behind and in front of the zipper thereby prevents the ingress of fluids or other foreign material directly into the mattress interior.

MAXIFLOAT DXP

Pressure Reduction Mattress

Specifications:

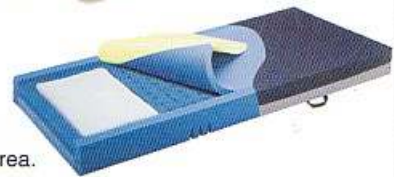

Hypolex® Ultra™ Protective Top Cover

The Hypolex Ultra Cover System is the industry's finest. This unique, coated material is completely waterproof and offers both low friction and low shear protection. It is also anti-microbial and incredibly stain resistant. The Hypolex Ultra Cover System is independently removable and replaceable, and attached with a 360° YKK zipper.

Inner Core Assembly

The three-layer progressively firmer inner core is constructed of state of the art Co-polymer and polyurethane foam. The two-section top layer is 4.45cm thick with a slightly firmer torso area and a super-soft foot/heel area. The second co-polymer layer is 5.08cm thick and includes a three zone, anatomically inspired, precision die-cut pattern. The DXP also includes high density side borders for added patient protection. The DXP also comes equipped with our patented multi-density and multi-layered Heel Pillow™. The bottom support layer is 5.72cm of high density polyurethane foam.

The Bottom Cover:

The bottom cover is a heavy duty, 11 oz. trilaminate vinyl that is waterproof and anti-bacterial. It is also removable and replaceable. It attaches directly to the top cover. Four (4) reinforced turning handles are included.

Flammability Standards:

The MaxiFloat DXP mattress meets Federal Flammability Standard 16CFR1632 (formerly DOC FF 4-72), as well as flame retardancy specifications listed in California Upholstery Provisions as stated in Technical Bulletin #117.

Special models are available (at additional charge) to meet California Technical Bulletin #121, #129, City of Boston IX-11, and others upon request.

Ordering Information:

Name	Size	BG Part Number
MaxiFloat® DXP	88.9 x 190.5 x 13.97cm	IIDXPHRDBLL-175
Pressure Reduction Mattress	88.9 x 203.2 x 13.97cm	IIDXPHRDBLL-180
	88.9 x 213.36 x 13.97cm	IIDXPHRDBLL-184

Warranty:

This warranty applies to defects in structure, workmanship, and materials and only to damages arising from normal hospital/facility usage on a non-prorated basis for a period of five (5) years from the date of purchase. Damages arising from abnormal use such as those caused by needle punctures, burns, chemicals, negligent use or improper care or cleaning, are excluded from coverage.
